PROFESSIONAL SUMMARY

Results-driven Software Engineer with almost 1 year of experience in Java, SQL, Servlets, and JDBC. Proficient in developing and optimizing backend systems, resolving critical application issues, and automating processes. Skilled in SQL and backend development. Passionate about learning new technologies and contributing to organizational growth.

TECHNICAL SKILLS

- **Programming Languages:** Java
- **Web Technologies:** JSP, Servlets, JDBC.
- **Databases:** SQL
- **Other Skills:** Exception Handling, Data Validation, Query Optimization, Process Automation

PROFESSIONAL EXPERIENCE

Tata Consultancy Services
Application Support Engineer | April 2024 – Present

- Provided **application support** for a high-traffic website, ensuring high system availability and performance.
- Optimized and enhanced **SQL queries** for efficient data retrieval and management.
- Strengthened the **Java-based backend**, improving system reliability and scalability.
- Resolved critical application issues, reducing downtime and improving user experience.
- Automated repetitive tasks using scripting, streamlining operational processes.

PROJECTS

Banking Portal (JSP & Servlet-Based)

- Developed a **secure banking system** for customer registration, account management, and transaction processing.
- Implemented **exception handling** and **data validation** to ensure robust security and data integrity.
- Utilized **JSP and Servlets** for dynamic web page rendering and backend logic.

JDBC Bank Application

- Built a **Java-based banking application** using **JDBC** for seamless database connectivity and operations.
- Added features such as **customer account creation**, **fund transfer**, and **balance inquiry**.
- Ensured efficient database management and optimized query performance.

EDUCATION

Bachelor of Technology
Jamia Millia Islamia, New Delhi | 2019 – 2023 | CGPA: 8.71
